DETAILED ACTION

This application is a continuation of 09/852,000 now abandoned.

The preliminary amendment filed June 10, 2004 canceling claims 1-8, 10, 11 and 13, amending claims 9, 12 and 14 and adding claims 15-17 has been entered.

Claims 9, 12 and 14-17 are pending.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 9, 12, 14 and 17, drawn to a DNA encoding a mutant fluorescent protein, classified in class 536, subclass 23.5.
- II. Claims 15 and 16, drawn to a method of visually analyzing gene expression or protein localization, classified in class 435, subclass 69.1.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product. See MPEP § 806.05(h). In the instant case a DNA encoding a mutant fluorescent protein can be used as a probe of for the production of a fusion protein.

Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
